

# EV Charging Instructions for the CarShare Parking Space on the TRU Campus (FLO Chargers) – SORENTO

Everything is located in the **center console**: AddEnergie card, Log book, Vehicle Pre-Inspection book

CHARGE

1

## Activate the station

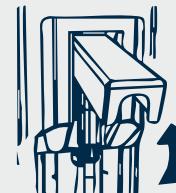

Tap the AddEnergie card on the reader screen on the FLO car charger.

**Hold card on screen until you hear 'beep'.**

2

## Open the door

Open the station's door and pull out the connector.

**The station's door may stick sometimes, please jiggle it.**

3

## Plug the connector

The charge port is on the passenger side. Open it by pushing on the left side of the cover and then remove the plug cover.

Plug the connector into your vehicle until you hear 'click'.

Charging will start immediately.

Charging light is amber (0-65% charged) or green (65-100% charged), and it will turn off when charge completed.

DISCONNECT

4

## Disconnect

- Push the unlock button twice on the key fob to unlock the connector. (photo A)
- Then push button on top of connector to release. (photo B)

A

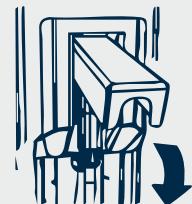

B

5

## Complete charging

Open the charge port by pushing on the left side of the cover, and then remove the plug cover. Replace it in its socket and close the door.
